This book may be cited as:

COST Action TU1205 – Overview of BISTS state of the art, models and applications

ISBN: xxxxx

Publication date: March 2015

## **Cost Action TU1205 – Basic Info**

**Chair of the Action:** Soteris Kalogirou, Cyprus

**Vice-Chair of the Action:** Mervyn Smyth, UK

**Rapporteur:** Luis Braganca, Portugal

**Working Group 1 Leader:** Werner Platzer, Germany

**Working Group 1 Deputy Leader:** Aleksandra Krstic-Furundzic, Serbia

**Working Group 2 Leader:** Daniel Chemisana, Spain

**Working Group 2 Deputy Leader:** Alberto Coronas, Spain

**Working Group 3 Leader:** Aggelos Zacharopoulos, UK

**Working Group 3 Deputy Leader:** Manolis Souliotis, Greece

**Working Group 4 Leader:** Brian Norton, Ireland

**Working Group 4 Deputy Leader:** David Kennedy, Ireland

## **Management Committee**

Gerald Leindecker, Austria

Jan Belis, Belgium

Aleksandar Georgiev, Bulgaria

George Xydis, Denmark

Christian Christofari, France

Gilles Notton, France

Yiannis Tripanagnostopoulos, Greece

Guedi Capeluto, Israel

Galit Shiff, Israel

Adolfo Palombo, Italy

Roberto Fedrizzi, Italy

Rosita Norvaisiene, Lithuania

Simon Paul Borg, Malta  
Vincent Buhagiar, Malta  
René Wansdronk, Netherlands  
Dorota Chwieduk, Poland  
Mariusz Fitowski, Poland  
Joao Ramos, Portugal  
Manuela Almeida, Portugal  
Milorad Bojic, Serbia  
Muhsin Kilic, Turkey  
Andy Ford, UK

## **Working Group Participants**

Rumen Popov, Bulgaria  
Rafaela Agathokleous, Cyprus  
Constantinos Christofi, Cyprus  
Georgios Florides, Cyprus  
Charalambos Tsioutis, Cyprus  
Andreas Savvides, Cyprus  
Constantinos Vasiliades, Cyprus  
Christoph Cappel, Germany  
Christoph Maurer, Germany  
Christophis Koroneos, Greece  
Aritra Ghosh, Ireland  
Donal Keys, Ireland  
Tim O'leary, Ireland  
Sarah McCormack, Ireland

Mick McKeever, Ireland

Lacour Ayompe, Ireland

Carlos Ochoa, Israel

Annamaria Buonomano, Italy

Tamasauskas Rokas, Lithuania

Artur Rusowicz, Poland

Laura Aelenei, Portugal

Ricardo Mateus, Portugal

Sandra Montaro da Silva, Portugal

Eliseu Ribeiro, Portugal

Ivan Miletic, Serbia

Danijela Nikolic, Serbia

Jasna Radulovic, Serbia

Blagojebic Mirko, Serbia

Kosic Tatjana, Serbia

Luisa F. Cabeza, Spain

Iñigo Iparraguirre, Spain

Chrysovalantou Lamnatou, Spain

Stefan Remke, Spain

Lopez Lorenzo Jose, Spain

Jayanta Deb Mondol, UK

Trevor Hyde, UK

## **Non-COST countries participation**

Andreas Athienitis, Canada

James Russell, USA

# General Table of Contents

## PART I

<b>1</b>	<b>Introduction .....</b>	<b>4</b>
1.1	Abbreviations and Nomenclature:.....	5
<b>2</b>	<b>BISTS Classification and Taxonomy .....</b>	<b>7</b>
2.1	Classification .....	7
2.2	BISTS applications .....	8
2.2.1	Space heating .....	8
2.2.2	Air heating and ventilation.....	8
2.2.3	Water heating .....	8
2.2.4	Cooling and ventilation .....	8
2.3	Taxonomy.....	10
<b>3</b>	<b>Solar thermal systems for building applications .....</b>	<b>12</b>
3.1	Water heating .....	12
3.1.1	Fluid collectors .....	12
3.1.2	Storage .....	14
3.1.3	System types .....	14
3.2	Space Heating .....	16
3.2.1	Solar combi systems.....	17
3.2.2	Air collector systems .....	17
3.2.3	Solar heating with seasonal storage systems .....	17
3.2.4	Passive solar systems .....	17
3.3	Ventilation and cooling.....	19
3.4	Combined thermal-electricity generation - PVT .....	20
3.4.1	Integration element .....	21
3.4.2	Type.....	21
3.4.3	Application .....	22
3.4.4	Approach.....	22
3.5	Linked auxiliary systems.....	23
<b>4</b>	<b>Architectural integration.....</b>	<b>27</b>

4.1	Introduction .....	27
4.2	Architectural Integration of Solar Thermal Systems.....	27
4.2.1	Placement possibilities.....	29
4.2.2	Function possibilities.....	33
4.2.3	Aesthetical possibilities.....	34
4.2.4	Constructional mounting options .....	38
<b>5</b>	<b>Building Physics .....</b>	<b>43</b>
5.1	Weather Proofing.....	43
5.2	Thermal insulation .....	43
5.2.1	Mineral wool .....	44
5.2.2	Rigid polyurethane foam (PUR/PIR).....	44
5.2.3	Transparent/Translucent Insulation.....	44
5.2.4	Insulation Thickness .....	46
5.3	Vapour transport.....	46
5.4	Noise attenuation .....	47
5.5	Daylighting and solar protection.....	48
<b>6</b>	<b>Environmental performance and sustainability .....</b>	<b>49</b>
6.1	Environmental benefits of using BISTS .....	49
6.2	Environmental sustainability .....	49
6.2.1	Life-cycle inventory and life-cycle impact assessment .....	49
6.2.2	Critical issues related with the LCA of the solar thermal systems .....	50
6.3	Durability and payback period for BISTS.....	51
6.4	Health and fire safety issues .....	51
<b>7</b>	<b>Standardisation, Testing and Performance Evaluation.....</b>	<b>52</b>
<b>8</b>	<b>Bibliography .....</b>	<b>53</b>

## **PART II**

<b>1</b>	<b>Introduction .....</b>	<b>66</b>
<b>2</b>	<b>Studies of Energetic Simulation (emphasis: building).....</b>	<b>66</b>
2.1	BI, Skin Façade .....	66
2.2	BI, Solar Chimney .....	68
2.3	BI, Solar Shades.....	69

2.4	BA, Solar Cooling/heating .....	69
2.5	General studies .....	70
<b>3</b>	<b>Studies of Energetic Simulation (emphasis: system) .....</b>	<b>71</b>
3.1	BI, Skin Façade .....	71
3.2	BI, Solar Chimney .....	72
3.3	BI, Trombe Wall.....	73
3.4	BI, PVT .....	73
3.5	BI, PV .....	76
3.6	BI, CPV.....	80
3.7	BA, Solar Cooling.....	81
3.8	General studies .....	82
<b>4</b>	<b>Studies of Energetic Simulation (emphasis: building/system) .....</b>	<b>86</b>
4.1	BI, Skin Façade .....	86
4.2	BI, Trombe Wall.....	87
4.3	BI, PVT .....	87
4.4	BI, PV .....	87
4.5	General Studies.....	89
<b>5</b>	<b>Studies of Thermal Simulation (emphasis: building) .....</b>	<b>93</b>
5.1	BI, Skin Façade .....	93
5.2	General studies .....	94
<b>6</b>	<b>Studies of Thermal Simulation (emphasis: system).....</b>	<b>95</b>
6.1	BI, Solar Thermal Collectors.....	95
6.2	BI, Skin Façades.....	96
6.3	BI, Pipes.....	101
6.4	BI, Solar Chimney .....	103
6.5	BI, Trombe Wall.....	103
6.6	BI, PVT .....	105
6.7	BI, PV .....	108
6.8	BI, Several systems.....	111
6.9	BA, Several systems .....	113
6.10	General studies .....	115
<b>7</b>	<b>Studies about Thermal Simulation (emphasis: building/system) .....</b>	<b>117</b>

7.1	BI, Solar Thermal .....	117
7.2	BI, Trombe Wall.....	118
7.3	BI, PVT .....	118
7.4	BI, PV .....	119
7.5	BI, Several systems.....	119
7.6	BA, Space heating/water heating .....	120
7.7	General studies .....	121
<b>8</b>	<b>Studies of Energetic/Thermal Simulation (emphasis: building) .....</b>	<b>122</b>
<b>9</b>	<b>Studies of Energetic/Thermal Simulation (emphasis: system) .....</b>	<b>122</b>
9.1	BI, Solar Thermal .....	122
9.2	BI, Skin Façades.....	122
9.3	BI, PVT .....	123
9.4	BI, PV .....	127
9.5	BI, PCM for passive solar walls.....	128
9.6	BA, PVT.....	128
9.7	General studies .....	130
<b>10</b>	<b>Studies of Energetic/Thermal Simulation (emphasis: building/system) .....</b>	<b>134</b>
10.1	BI, Solar Collectors .....	134
10.2	BI, Skin Façade .....	134
10.3	BI, PVT .....	135
10.4	BI, PV .....	136
10.5	BA, Several systems .....	137
<b>11</b>	<b>Studies of Optical Simulation (emphasis: building) .....</b>	<b>138</b>
<b>12</b>	<b>Studies of Optical Simulation (emphasis: system).....</b>	<b>138</b>
12.1	BI, Several systems.....	138
12.2	BA, Low-concentration evacuated-tube solar collector .....	140
<b>13</b>	<b>Studies of Optical/Thermal Simulation (emphasis: building/ system) .....</b>	<b>141</b>
13.1	BI, Several systems.....	141
<b>14</b>	<b>Studies about other types of simulation.....</b>	<b>143</b>
14.1	Exergy analysis (emphasis: system) .....	143
14.2	Energetic/lighting simulation (emphasis: building/system) .....	143
14.3	Emergy analysis (emphasis: building/system) .....	143

14.4	Sunlight simulation (emphasis: system) .....	144
<b>15</b>	<b>Conclusions .....</b>	<b>145</b>

## **PART III**

<b>1</b>	<b>General Background .....</b>	<b>151</b>
<b>2</b>	<b>Water Heating BISTS.....</b>	<b>153</b>
2.1	Introduction .....	153
2.2	Review of Water heating BISTS.....	153
2.2.1	Solar Thermal Façade by WAF.....	153
2.2.2	Flat plate collector by Energie Solaire.....	155
2.2.3	Soltech Sigma – Roof BISTS .....	157
2.2.4	Universität Stuttgart, IBK 2 – Façade system .....	158
i.	Roof and facade BISTS – Citrin Solar .....	159
2.2.5	Residential Building – Belgrade.....	160
2.2.6	Residential Building – China.....	161
2.2.7	Residential Building – Holland.....	162
2.2.8	School building – New Haven, USA .....	162
2.2.9	Residential building – Florida, USA .....	163
2.2.10	Residential Building – Ireland.....	164
2.2.11	Office Building – Switzerland .....	165
2.2.12	Solar fence – JET Solar.....	165
2.2.13	Residential building – China.....	166
2.2.14	Solar Hybrid Shades in residential building – Hollywood, USA.....	167
2.2.15	Non-rectangular solar collectors for roof or wall integration.....	168
<b>3</b>	<b>Air Heating BISTS.....</b>	<b>171</b>
3.1	Introduction .....	171
3.2	SolarWall systems .....	171
3.3	The Kingspan Integrated Sol-Air Collector .....	172
3.4	Solar Cooling Systems .....	173
3.5	The SunMate™ Solar Air Heating Collector.....	174
3.6	Air BISTS projects .....	175
3.6.1	Commercial Building – Doncaster, UK.....	175

3.6.2	Residential Building – Japan.....	176
3.6.3	Industrial Building – Montreal, Canada.....	177
3.6.4	Research facilities – Colorado, USA.....	177
3.6.5	Avon Theatre – Ontario, Canada.....	178
3.6.6	Public School – Canada .....	179
3.6.7	Public Building – Erlangen, Germany .....	179
3.6.8	Industrial Building – Colorado, USA .....	180
3.6.9	Residential Building – Manitoba .....	181
3.6.10	Airport Building – Canada .....	182
3.6.11	Commercial Building – Leicestershire.....	183
3.6.12	Public Building – South Dakota, USA.....	183
3.6.13	Public Building – Minnesota, USA.....	184
3.6.14	Industrial Building – France.....	184
3.6.15	Commercial Building – Aurora, Colorado, USA.....	184
<b>4</b>	<b>BISTS for Heating-Cooling-Shading (H-C-S).....</b>	<b>188</b>
4.1	Intro on BISTS for H-C-S .....	188
4.2	Review of H-C-S BISTS .....	188
<b>5</b>	<b>PVT BISTS .....</b>	<b>199</b>
5.1	Introduction on PVT BISTS .....	199
5.2	Review of PVT BISTS.....	200
5.2.1	Hybrid solar system integrated on roof .....	200
5.2.2	Building-integrated multifunctional PV/T solar window.....	202
5.2.3	Hybrid thermal insulating PV façade element .....	204
5.2.4	Office Building – Lisbon, Portugal .....	204
5.2.5	Institutional Building – Beijing, China .....	206
<b>6</b>	<b>Combined BISTS for Heating Cooling and Shading .....</b>	<b>208</b>
6.1	Review of Combined BISTS .....	208
6.1.1	Residential Building – Graz, Austria .....	208
6.1.2	Commercial Building – Lisbon, Portugal.....	209
6.1.3	Commercial Building – Satteins, Austria .....	209
6.1.4	Office Building – Ljubljana, Slovenia .....	210
6.1.5	Residential Building – Paris, France .....	211
6.1.6	Residential Building – Warsaw, Poland.....	212

6.1.7	Residential Building – Ajaccio, France.....	214
6.1.8	Asphalt solar collector incorporating carbon nano-tubes for combine HW and space heating 216	
<b>7</b>	<b>BISTS linked to other systems .....</b>	<b>218</b>
7.1	Introduction on BISTS linked to other systems.....	218
7.2	Review of BISTS linked to other systems .....	218
7.2.1	BISTS with heat pumps.....	218
7.2.2	BISTS with Thermally Activated Chillers (TAC).....	221
7.2.3	Other linked BISTS case studies .....	223
<b>8</b>	<b>Thermal Energy Storage (TES) for BISTS.....</b>	<b>228</b>
8.1	Introduction .....	228
8.1.1	Passive systems – Solar Wall.....	229
8.1.2	Active systems.....	233
8.1.3	External solar façade.....	235
8.1.4	Water tanks.....	236
8.1.5	Examples of single dwelling Seasonal TES (STES).....	237

# **PART III:**

## **Investigation of new applications for innovative BISTS**

### **Contributors:**
