

EQUATION OF OSCILLATIONS WITH ONE COMMON CAUSE OF OSCILLATIONS AND WITH VARIABLE AMPLITUDES

JELENA VUJAKOVIĆ, LJUBICA LALOVIĆ AND MILOJE RAJOVIĆ

ABSTRACT. Using a series iteration method, as well as the mean value theorems of integral in this paper we have determined the solutions of oscillations in the case of negative coefficient. In addition, we applied Sturm's theorems on position of zeros and determined values of amplitudes.
