Dear Dr Olivera Milosevic-Djordjevic:

Thank you for reviewing the above manuscript, entitled "Low concentrations of artemether plus lumefantrine have genotoxic effects on human lymphocytes in vitro" for Drug and Chemical Toxicology.

We greatly appreciate the voluntary contribution that each reviewer gives to the Journal. We hope that we may continue to seek your assistance with the refereeing process for Drug and Chemical Toxicology, and hope also to receive your own research papers that are appropriate to our aims and scope.

Sincerely,
Dr Reddy
