2. Partnership statement³

A partnership is a relationship of substance between two or more organisations involving shared responsibilities in undertaking the action funded by the EAR. To ensure that the action runs smoothly, the EAR requires all partners (including the lead applicant that signs the contract) to acknowledge this by agreeing to the principles of good partnership practice set out below.

Principles of Good Partnership Practice

1. All partners must have read the application form and understood what their role in the action will be before the application is submitted to the EAR.
2. All partners must have read the standard grant contract and understood what their respective obligations under the contract will be if the grant is awarded. They authorise the lead applicant to sign the contract with the EAR and represent them in all dealings with the EAR in the context of the action's implementation.
3. The applicant must consult with its partners regularly and keep them fully informed of the progress of the action.
4. All partners must receive copies of the reports - narrative and financial - made to the EAR.
5. Proposals for substantial changes to the action (e.g. activities, partners, etc.) should be agreed by the partners before being submitted to the EAR. Where no such agreement can be reached, the applicant must indicate this when submitting changes for approval to the EAR.
6. Before the end of the action, the partners must agree on an equitable distribution of equipment, vehicles and supplies for the action purchased with the EU grant among local partners situated in the target countries. Copies of the transfer titles must be attached to the final report.

Statement of partnership

We have read and approved the contents of the proposal submitted to the EAR. We undertake to comply with the principles of good partnership practice.
